# KISHAN H.P.

FRONTEND DEVELOPER & UI/UX DESIGNER | FULL STACK WEB DEVELOPER

Mysuru, Karnataka, India | kishanhp18@gmail.com | github.com/KishanHP1808 | linkedin.com/in/kishan-h-p-9766063b3

## PROFESSIONAL SUMMARY

Innovative Frontend Developer and UI/UX Designer based in Mysuru, Karnataka, specializing in high-performance web applications, fluid motion architecture, and clean full-stack systems. Demonstrated expertise across React, TypeScript, Next.js, Python/Django, RESTful APIs, and modern Figma design systems. Committed to building robust, accessible, user-centric digital experiences.

## CORE TECHNICAL SKILLS

**Frontend & UI:** React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, GSAP, Motion, Responsive Design

**Backend & Systems:** Node.js, Express, Python, Django 5, Django REST Framework, FastAPI, REST APIs, WebSockets, JWT Auth

**Design & Prototyping:** Figma (Design Systems, Auto-Layout, Interactive Prototyping), UI/UX Wireframing, Information Architecture

**DevOps & Tooling:** Git, GitHub, Docker, CI/CD Actions, Render, Vercel, Vite, Linux Shell, Redis

## SELECTED ENGINEERING PROJECTS

**AgriGuard — Smart Crop Disease Detection & Agricultural Advisory** github.com/KishanHP1808/crop-disease-detection | Live: https://agri-guard-yw1o.onrender.com

*Tech Stack: React, TypeScript, Python / Django, AI Diagnostics, Tailwind CSS*

- Engineered an automated crop pathology detection web platform serving diagnostic insights for farmers with an ultra-responsive mobile interface.
- Designed RESTful Django API endpoints processing high-res leaf disease imagery with sub-second feedback.
- Integrated localized market pricing indicators, weather analytics, and multilingual agricultural advisories.

**Football Auction System — Real-Time Bidding & Player Valuation** github.com/KishanHP1808/football-auction | Live: https://football-auction-uak7.onrender.com

*Tech Stack: React, Django Channels, WebSockets, Redis, Tailwind CSS*

- Architected a synchronized live auction engine with real-time countdown clocks, atomic bid validation, and dynamic team budget tracking.
- Resolved split-second race conditions using Redis pub/sub locks and optimistic state reconciliations.
- Crafted an immersive 4K stadium dashboard delivering sub-50ms live spectator updates.

**SmartAttend — Modern Attendance & Facial Recognition System** github.com/KishanHP1808/Smart-attend

*Tech Stack: Python, OpenCV, Tkinter/Web UI, SQLite*

- Built biometric optical verification pipeline recording real-time student/employee attendance logs.
- Exported automated CSV reports and integrated administrative management portals.

**Personal Research Assistant — AI Document Intelligence & Retrieval** github.com/KishanHP1808/Personal-Research-Assistant | Live: https://personal-research-assistant-vzr7.onrender.com/

*Tech Stack: FastAPI, Python, LangChain, React, Pydantic*

- Designed an asynchronous API streaming research document queries with sub-second token delivery.
- Constructed multi-document synthesis workflows and automated executive summary generation.

## EXPERIENCE & ENGINEERING ROLES

**Full Stack & Advanced Frontend Developer** 2025 – Present

*Creative Digital Labs & Independent Projects*

Spearheading modern responsive web applications, architecting real-time WebSocket client systems, and crafting accessible component libraries in React, Next.js, and TypeScript.

**UI/UX Designer & Web Developer** 2024 – 2025

*Digital Product Initiatives*

Created end-to-end design systems in Figma with auto-layout tokenization. Translated prototypes into high-performance full-stack web applications with Python/Django backends.

## CERTIFICATIONS & ACCREDITATIONS

- Meta Certified Front-End Developer Professional (React, JavaScript, Web Performance)
- Google UX Design Professional Specialization (Figma, User Research, Interaction Design)
- Full Stack Web Engineering & Cloud Deployment (HackerRank & freeCodeCamp)
- DeepLearning.AI Machine Learning & Neural Networks Specialization
